Schedule No. AA-4

All Districts

PRIVATE FIRE PROTECTION SERVICE

APPLICABILITY

Applicable to all water service rendered for private fire protection purposes.

TERRITORY

Applicable within the Arden-Cordova, Barstow, Bay, Calipatria-Niland, Clearlake, Desert, Los Osos, Metropolitan, Ojai, Orange County, Pomona Valley, San Dimas, Santa Maria, San Gabriel Valley, Simi Valley, and Wrightwood Districts.

RATES

Per Meter
Per Month

For each inch of diameter of service connection..... \$ 5.00

SPECIAL CONDITIONS

1. The customer will pay, without refund, the entire cost of the private fire service.
2. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property and subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
3. The minimum diameter for the private fire service connections will be 2 inches. The maximum diameter shall not be larger than the diameter of the main to which the private fire service facilities are attached unless said main is circulating, in which case with the approval of the utility the maximum diameter may be larger by not more than 2 inches than the diameter of said circulating main. (C)
4. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
5. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises, or within public right of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely a private fire hydrant facility, the requirement for detector check valve or other similar device may be waived.
6. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
7. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.

Rule No. 7

DEPOSITS

A. Amount to Establish Credit

1. Metered Service

a. To establish credit by deposit, the amount for residential service requiring not more than one 5/8 x 3/4-inch meter will be \$30.00 when bills are rendered monthly or \$60.00 when bills are rendered bimonthly.

(l)

b. To establish credit by deposit, the amount for all other service will be twice the estimated average monthly bill.

2. Flat Rate Service

No deposit will be required, except as prescribed for temporary service in Rule No. 13.

B. Amount to Re-Establish Credit

1. Former Customers

To re-establish credit for an applicant who previously has been a customer of the utility and during the last 12 months of that prior service has had service discontinued for nonpayment of bills, the amount will be twice the estimated average monthly or bimonthly bill to be rendered for the service requested.

2. Present Customers

To re-establish credit for a customer whose service has been discontinued for nonpayment of bills, the amount will be twice the average monthly or bi-monthly bill to be rendered for that service.

C. Applicability to Unpaid Accounts

Deposits made under this rule will be applied to unpaid bills for service when such service has been discontinued.

(Continued)

Rule No. 7DEPOSITS

(Continued)

D. Return of Deposits

1. Upon discontinuance of service, the utility will refund the balance of the customer's deposit in excess of unpaid bills for that service for which the deposit was made.
2. If the customer has paid bills for service on the average within 15 days after presentation during the period of time the deposit is held or for 12 consecutive months, the utility will refund the deposit with interest as provided in Paragraph E of this rule.
3. Should the customer establish credit by other means in accordance with Rule No. 6 and then requests the return of his deposit, it shall then be returned with interest.

E. Interest on Deposits

1. The Utility will pay simple interest on deposits at the average monthly 90-day commercial paper rate per month for the first 12 consecutive months (or shorter period if service is discontinued after less than 12 months) and for additional time thereafter up to the date of refund; provided, however, that no interest shall accrue (1) after mailing refund or notice that refund is due and payable to the customer at his last known address, and (2) if service is temporarily or permanently discontinued for nonpayment of bills.
2. No interest will be paid on deposits made for temporary service.

(C)

(C)

Rule No. 11DISCONTINUANCE AND RESTORATION OF SERVICE

(Continued)

B. Continuance of Services by Utility (Continued)

3. For Waste of Water (Continued)

- b. In order to protect itself against serious and unnecessary waste or misuse of water, the utility may meter any flat rate service and apply the regularly established meter rates where the customer continues to misuse or waste water beyond five days after the utility has given the customer written notice to remedy such practices.

4. For Unsafe Apparatus or Where Service is Detrimental or Damaging to the Utility or its Customers

If an unsafe or hazardous condition is found to exist on the customer's premise, or if the use of water thereon by apparatus, appliances, equipment or otherwise is found to be detrimental or damaging to the utility or its customers, the service may be shutoff without notice. The utility will notify the customer immediately of the reasons for the discontinuance and the corrective action to be taken by the customer before service can be restored.

5. For Fraudulent Use of Service

When the utility has discovered that a customer has obtained service by fraudulent means, or has diverted the water service for unauthorized use, the service to that customer may be discontinued without notice. The utility will not restore service to such customer until that customer has complied with all filed rules and reasonable requirements of the utility and the utility has been reimbursed for the full amount of the service rendered and the actual cost to the utility incurred by reason of the fraudulent use.

C. Restoration of Service

1. Reconnection Charge

Where service has been discontinued for violation of these rules or for nonpayment of bills, the utility may charge \$25.00 for reconnection of service during regular working hours or \$37.50 for reconnection of service at other than regular working hours when the customer has requested that the reconnection be made at other than regular working hours. APPENDIX I

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the Application of the **SOUTHERN CALIFORNIA WATER COMPANY (U 133 W)** for an order authorizing it to increase rates for water service by \$19,826,100 or 29.72% in the year 2003; by \$6,327,800 or 7.31% in 2004; and by \$6,326,200 or 6.81% in 2005 in its Region III Service Area and increase rates for the General Office Allocation in all of its Customer Service Areas in this Application including: Arden-Cordova, Bay Point, Clearlake, Los Osos, Ojai, Santa Maria, Simi Valley and Metropolitan.

Application No.
02-11-007

STIPULATION

1.00 Introduction

- 1.01 This Stipulation resolves a portion of the issues in the matter of the application of Southern California Water Company (SCWC) for an increase in its general rates for water service in its Region III Service Area and increased rates for the General Office Allocation in all of its Customer Service Areas including: Arden-Cordova, Bay Point, Clearlake, Los Osos, Ojai, Santa Maria, Simi Valley and Metropolitan.
- 1.02 The parties to this Stipulation are SCWC and the Office of Ratepayer Advocates (ORA) of the Commission, collectively referred to as the "Parties." The Cities of San Dimas and Claremont attended a portion of the settlement discussions but have not signed on to this Stipulation.
- 1.03 ORA conducted an independent review of SCWC's application. As part of this review, field tours and Public Participation Hearings were held in the Barstow, Claremont and Orange County CSAs. ORA submitted reports, dated April 2003, indicating areas of disagreement with SCWC's application. Subsequently, the Parties, including the representatives from Claremont and San Dimas, met to discuss the differences between SCWC's application and ORA's reports. Those negotiations resulted in the resolution of the following issues set forth below. Appendix D to this Stipulation contains a list of the non-stipulated issues, which remain outstanding.

- 1.04 This document contains a description of the stipulated issues. Appendix A to this Stipulation shows a summary of earnings comparison for SCWC versus ORA based on stipulated and non-stipulated items both from SCWC's position and ORA's position.
- 1.05 Due to the significant number of advice letter projects agreed to in this Stipulation (shown as Appendix C), ORA and SCWC do not agree on mechanics of the calculation of the allowance to offset attrition. Therefore the issue is included as a Disputed item in Appendix D.
- 1.06 Attached to this Stipulation are the following appendices:
- Appendix A -- Summary of Earnings
 - Appendix B -- Supporting Calculations (to be provided with final decision tables)
 - Appendix C -- Stipulated Capital Budgets and Advice Letters
 - Appendix D -- Disputed Items
- 1.07 Only areas of difference between the Parties that have been stipulated are specifically addressed in the Stipulation. All disputed items relating to cost of service and policy issues have been included in Appendix D.
- 1.08 The Parties agree that neither signatory to this Stipulation nor any member of ORA or SCWC assumes any personal liability as a result of this Stipulation. The Parties agree that no legal action may be brought in any state or federal court or in any other forum against any individual signatory representing the interests of the Parties, attorneys representing the Parties, or the Parties themselves involving any matter related to this Stipulation. All rights and remedies of the Parties are limited to those available before the Commission.
- 2.00 Plant**
- 2.01 SCWC and ORA agreed upon \$655,453 in 2003 and \$166,522 in 2004 for JD Edwards accounting products (contained in Appendix C, Accounting Department) and SCWC would reduce by 10 percent of the cost of these accounting products (\$65,500 in 2003 and \$16,700 in 2004) the General Office (GO) Office Supply Costs.

2.02

Below are the totals for the General Office, Region III Headquarters, District Offices and Customer Service Areas. (CSA). The tables include SCWC's estimate, ORA's estimate, and the result of further discussions by the Parties for the years 2002, 2003, and 2004. Attached as Appendix C are the details (including a 22.5% overhead rate) of the following stipulated capital budgets.

Advice Letter Treatment

- 2.03 Calipatria Water Treatment Plant - SCWC included \$3,359,000 in 2002 and \$5,814,000 in 2003 in its Application for the Calipatria Water Treatment Plant in the Calipatria CSA. In its report ORA recommended to defer \$3,017,300 from 2002 to 2003 in addition to including \$5,814,000 for the treatment plant in 2003. During the processing of the Application SCWC received bids from two outside consultants (Montgomery Watson and Webb and Associates) in the amounts of \$13.2 million and \$18.9 million respectively. Due to the disparity of cost estimates, SCWC and ORA agreed to the Advice Letter projects listed below in Section 2.04, entitled Calipatria/Niland CSA, with an initial overall cap of \$10.3 million, which can be filed for either in its entirety or by component. Advice Letters

for any specific component may exceed the stipulated project amount but may not exceed \$10.3 million in total. Any amount exceeding \$10.3 million shall be included in plant in service in the next GRC.

2.04

Advice Letter Projects - In reviewing SCWC's plant forecast, it was found to be prudent that SCWC make the following plant investment. Due to lead-time required and cost variability, ORA and SCWC agreed that SCWC is authorized to file advice letters seeking authorization to include in rate base, upon completion, the actual costs of the plant additions set forth herein and to receive a corresponding rate adjustment for the additional rate base. Secondly, it is also agreed that the final decision would contain an ordering paragraph authorizing each and every advice letter project contained herein. Thirdly, it was agreed upon that these advice letter projects include an overhead rate of 22.5% rather than 25% as originally filed by SCWC and that the projects would be capped at the SCWC amount shown below for all areas other than Calipatria (for Calipatria see section 2.03).

3.01 Customers (Connections) -- SCWC and ORA used a variety of methodologies to estimate customer growth within each CSA. The Parties agree to use ORA's estimates of the number of customers in each area of disagreement except in Orange County and San Dimas. The Parties agree to use SCWC's forecast in Orange County and settle on San Dimas expected growth.

Sales per Customer -- SCWC and ORA used a variety of methodologies to estimate sales per customer in each customer class. The Parties agreed to the usage for all customer classes except for commercial customers. ORA used the Modified Bean Method to forecast commercial usage while SCWC used the Econometric Method. The commercial usage forecast methodology was litigated as is listed as a disputed issue in Appendix D. Sets forth below are the stipulated sales per customer for 2003 and 2004.

4.00 Labor

4.01 General Office Labor – SCWC’s forecast for General Office labor was based on its current organizational structure, actual payroll, using twelve months’ recorded ratios of expense to capital. Added to this base was inflation, overtime, increases for merit, and overhead to account for the clearing of miscellaneous tools to derive the forecast for the Test Years. ORA used 2001-recorded labor and applied the non-labor inflation, without any further adjustments. SCWC and ORA did not reach consensus on the General Office Labor expense and agreed to litigate the issue, as shown on Appendix D.

4.02 District Labor -- SCWC’s forecast for total labor was based on its current organizational structure, actual payroll, using twelve months’ recorded ratios of expense to capital. Added to this base was inflation, overtime, increases for merit, overhead to account for the clearing of miscellaneous tools and stand-by and call-out pay to derive the forecast for the Test Years. ORA used recorded labor expenses and applied inflationary increases without adjusting for any vacant positions during the historical period.

To resolve the differences, SCWC and ORA agreed on the following

methodology: The current organizational structure is accepted as reasonable. Adjusting the 2002 recorded labor expense to bring all currently filled positions to a full year level (where a vacancy occurred during 2002) derives the labor expense for the test years. The Parties agree to the following estimates for 2003 with the labor inflation factor discussed in paragraph 8.02 applied to derive the 2004 expense:

5.00 **Administrative and General Expenses**

- 5.01 Office Supplies -- To estimate expenditures for Office Supplies, SCWC used a zero-based budget, while ORA used 2001 recorded expenses and applied non-labor inflation. The parties agree to reduce the stipulated General Office expense by 10% of the cost of JDEdwards OneWorld

products (see paragraph 2.01) to reflect cost savings. The reduction is \$65,500 in 2003 and \$16,700 in 2004. The Parties agree to the following estimates for 2003 with the established inflation factors discussed in paragraph 8.02 applied to 2003 to derive the 2004 expense:

Property Insurance -- To estimate expenditures for General Office Property Insurance, SCWC used a zero-based budget, while ORA used 2001 recorded expenses and applied non-labor inflation. The stipulated amount reflects a forecast incorporating actual premiums paid for the 2002/2003 fiscal year. SCWC and ORA also agree to a 5% inflationary increase for the 2004 test year and the following estimate for 2003 and 2004:

Allocated Expense of General Office, Common Customer Accounts, Region and District Offices – SCWC allocated the General Office Expense, Common Customer Accounts and Region 3 Office, Orange County, Foothill and Mountain-Desert District Offices to each CSA based on the updated “Revised Four-Factor.” SCWC and ORA agree to use the updated allocation percentages that SCWC proposed in this case, but have not agreed on the actual dollars to be allocated for General Office and Common Customer Accounts. SCWC and ORA agreed to estimates for allocation of the Region 3 Office and the Orange County, Foothill and Mountain-Desert District Offices to each CSA. The allocations are shown in Appendix A (Summary of Earnings). The 2004 increases over the 2003 estimates are due to the application of the appropriate labor or non-labor inflation factor for 2004 to the 2003 expenses. SCWC and ORA agree to the following estimates for allocation of the Region 3 Office and the Orange County, Foothill and Mountain-Desert District Offices to each CSA for 2003 and 2004.

6.00 **Operations and Maintenance**

- 6.01 Uncollectibles – SCWC based its forecast for uncollectibles on the 5- year average of write-offs less recoveries as a percentage of gross revenues. ORA based its forecast on the 2002-recorded uncollectibles expense divided by gross revenues. SCWC and ORA agree to the following uncollectible percentage, to be used for both the test years:

<u>CSA</u>	<u>SCWC</u>	<u>ORA</u>	<u>Stipulated</u>

6.02

All Other Operations – To estimate expenditures for Other Operations Expense in Region 3, SCWC used an average of historical expenditures, while ORA used 2002 recorded expenses and applied non-labor inflation. SCWC and ORA agree to the following estimates for 2003 with the established inflation factors discussed in paragraph 8.02 applied to 2003 to derive the 2004 expense:

6.03

All Other Operating Expense (General Office) – To estimate expenditures for Other Operating Expense in the General Office, SCWC used a zero based budget including an adjustment for operating costs related to the proposed Security Plan, while ORA used 2001 recorded expenses and applied non-labor inflation. SCWC and ORA agree to use ORA's forecast for All Other Operating expenses, and to litigate the issue of including the Security Plan operating costs (See Appendix D). SCWC and ORA agree to the following estimate for 2003 before adjustment for Security Plan expenses with the established inflation factors discussed in paragraph 8.02 applied to 2003 to derive the 2004 expense:

6.08 Payroll Taxes – SCWC and ORA agree to apply a rate of 7.90% to all labor expenses, as calculated in SCWC's zero-based forecast.

6.09 Local Taxes – SCWC and ORA agree to apply the 5-year average recorded rate of 0.957% to all gross revenues.

7.00 **Supply**

7.01 Sources -- A combination of historical usage, expected developments, and constraints on systems were analyzed to determine the level of production from wells and use of surface water. Any additional requirement will be calculated using the composite supply mix ratios adopted in this proceeding. The Parties agreed to the supply mix percentages for 2003 and 2004 in all CSAs except Claremont. ORA used the latest five-year average recorded to forecast Claremont supply mix while SCWC used the latest three-year average recorded, taking into considerations the current wells status in the district. Supply mix in Claremont is not settled and is listed, as a disputed issue in Appendix D. Set forth below is the stipulated supply mix for 2003 and 2004.

Supply Cost -- Purchased Water – The Parties agree to use SCWC's methodology to forecast purchased water cost. The latest available rates prior to producing the final decision tables should be used as referenced in paragraph 8.03. For all areas other than Claremont, the differences between SCWC's forecast and ORA's forecast of expenses associated

with purchased water are attributable to differences in the Parties' projection of sales and ORA's exclusion of the second test year inflation factor which are included as disputed items in Appendix D. For Claremont the differences also include a disputed supply mix also included in Appendix D.

Purchased Energy – The Parties agree to use SCWC's methodology to forecast purchased energy cost. The latest available rates prior to producing the final decision tables should be used as referenced in paragraph 8.03. For all areas other than Claremont, the differences between SCWC's forecast and ORA's forecast of expenses associated with purchased energy are attributable to differences in the Parties' projection of sales and ORA's exclusion of the second test year inflation factor which are included as disputed items in Appendix D. For Claremont the differences also include a disputed supply mix also included in Appendix D.

Pump Tax – The Parties agree to use SCWC's methodology to forecast pump tax cost. The latest available rates prior to producing the final decision tables should be used as referenced in paragraph 8.03. For all areas other than Claremont, the differences between SCWC's forecast and ORA's forecast of expenses associated with pump tax are attributable to differences in the Parties' projection of sales which is included as a disputed item in Appendix D. For Claremont the differences also include a disputed supply mix also included in Appendix D.

7.04

Chemicals -- The Parties agree to use SCWC's chemicals unit cost per KCcf to forecast chemicals cost. The differences between SCWC's forecast and ORA's forecast of chemicals are attributable to differences in the Parties' projection of sales and supply mix. The Parties agree to estimate chemical costs for the Test Years based on recorded 2001 or zero-based, inflated with the latest available weighted non-labor inflation. Set forth below are the chemicals unit cost for 2003 and 2004

- 7.05 Unaccounted Water and Water Used in Operation -- SCWC used the recorded percentage of unaccounted Water and Used in Operation water for 12 months ending December 2001. ORA used an average of recorded amounts for 1997 through 2001 to derive its estimate. The Parties agree to use the following estimates for both 2004 and 2004:

<u>CSA</u>	<u>SCWC</u>	<u>ORA</u>	<u>Stipulated</u>
Barstow	11.31%	10.44%	10.44%
Calipatria	4.14%	2.91%	2.91%

San Gabriel	6.21%	6.27%	6.27%
Wrightwood	22.16%	19.33%	19.33%

8.00 **Common Issues**

- 8.01 Inflation -- The Parties stipulate that the adopted inflation shall be the latest available prior to developing the decision tables.
- 8.02 Established Factors -- The Parties agree that the Established Factors should be split 60/40 between 1) the Non-Labor Index and 2) the Compensation Per Hour Index (both of which are published in a memo from ORA's Monopoly Regulation Branch to the Water Division on a monthly basis).
- 8.03 Rates Charged for Purchased Water, Purchased Power and Pump Tax -- The Parties agree for 2003 that the latest available rates prior to developing the decision tables should be used to calculate supply expenses in the final decision. Increases in supply costs for 2004 are included as disputed items in Appendix D.

9.00 Audit

9.01 On April 8, 2004 Water Division, Audit and Compliance Branch (ACB) completed an Audit of SCWC. SCWC, Audit and Compliance Branch, and ORA stipulate to the following:

9.02 Overhead Construction Costs – ACB reviewed SCWC's accounting practices related to its allocation of overhead costs to its construction budget. ACB's recommendation was that for ratemaking purposes, SCWC should not be allowed to include \$1,425,453 of accumulated overhead as part of rate base. SCWC agrees and has not included \$1,425,453 in rate base.

9.03 Overhead Rate - Additionally ORA and SCWC agree that an overhead rate of 22.5% is appropriate and therefore should be applied to the General office and Region III capital budget components for the test years. Where a total composite dollar was stipulated to, a 22.5 % overhead shall be implied.

9.04 Annual Financial Report – ACB reviewed SCWC's 2001 annual financial report submitted to the Commission, which contained the netting of the balancing accounts against the other deferred credit accounts. ACB recommended that in its 2002 financial report SCWC show the balances prior to netting. SCWC agrees with ACB and had already made this correction in 2002 prior to the release of the audit report.

9.05 Revenue From The Rental of Water Property – SCWC had inadvertently coded revenue from the rental of water utility property for cellular tower sites into PUC account 526, Miscellaneous Non-operating Revenues from 1996 to the present. SCWC agrees that the proper account for the revenue related to cellular tower sites should be PUC account 612 and SCWC will correct the entries retroactive to the beginning of the current accounting period in accordance with the procedures identified in Commission Decision 00-07-018 for a passive investment (70/30 split).

9.06 Legal Costs - The Audit Report recommended moving \$3,347,973 (total company) of Water Rights Legal Costs from CWIP to balancing accounts or expense. ORA have revised their recommendation down to \$2,529,899, to reflect the end of litigation related to Barstow's water rights. Therefore \$818,074, Region III's portion of Water Rights Legal Costs is properly accounted for in rate base in this GRC.

10.00 Other Issues

10.01 Water Quality Oll Expense Amortization - In March 1998 the Commission issued an Oll to determine whether existing standards and policies regarding drinking water quality adequately protect the public health. In

the meantime, the Commission issued Resolution W-4089, W-4094 and W-4257 in 1998 authorizing the establishment of memorandum accounts for the OII and water quality litigation expenses. While water quality litigation are still proceeding, SCWC's current balance as of March 31, 2004 is \$1,052,480. SCWC was ordered to amortize the balances in the next GRC. ORA took no position on this in their report.

10.02

11.00 Tariff Rules

11.01 Customer Deposit Level – SCWC and ORA agree that SCWC shall revise its tariff sheet, Rule No. 7, to change the deposit amount it requires from residential customers with a 5/8" x 3/4" meter to establish credit, to \$30 if monthly billed and \$60 if bi-monthly billed. This will allow the Company to collect a deposit from customers posing a credit risk that will cover a larger portion of an unpaid bill in the event that a customer fails to make a bill payment.

11.02 Interest Paid on Customer Deposit – SCWC and ORA agree that the current annual rate of 7% paid by SCWC for customer deposits is excessive and should be modified. Therefore it is mutually agreed that SCWC shall modify its Tariff Rule 7 to reflect the payment of interest on customer deposits based on the 90-day commercial paper rate per month.

11.03

11.04 Private Fire Service – The currently effective Rate Schedule AA-4 limits the minimum diameter for private fire protection service to four inches. SCWC and ORA agree that increasing requirements from fire protection agencies and city ordinances have resulted in the need to install fire protection services that are smaller than 4 inches. Therefore Rate Schedule AA-4 is revised to limit the minimum diameter for private fire protection service to 2 inches.
